Subject: RE: Release of NRC Report

Ellen

I am sure we would like to get a briefing on this. A Friday afternoon in July might be a challenge with attendance, but some of us will be here. Please work with Nathan Gentry (who is out next week) to schedule.

Bob

Subject: Release of NRC Report

The NRC report *Application of Modern Toxicology Approaches for Predicting Acute Toxicity for Chemical Defense* will be publicly released on July 20th. It is a report sponsored by the Department of Defense that investigates the feasibility of developing a testing program that uses recent advancements and developments in toxicity-testing methods and approaches to identify acutely toxic agents rapidly that are relevant to DOD. We will be briefing DOD on Friday, July 17th, in the morning. We thought that EPA might appreciate a briefing on this report and would like to offer you a briefing early afternoon on July 17th. Please let me know if you would like a briefing, and we will work on finding a convenient time. Thanks so much.
